BASIC SKILLS TEST PREPARATION ONLINE SYSTEM (BST-PREP)

The Basic Skills – Test Preparation was created to help teacher education students study for and pass the Basic Skills Test (BST). The Basic Skills – Test Preparation (BSTP) system is an interactive, web-based curriculum that contains content, examples, and questions for all three sub-areas of the BST (Reading Comprehension, Language Arts, and Mathematics). The BSTP includes a Learning Survey, which is designed to assist you in identifying what areas are your strengths as well as the areas in which you still need to work. More information can be found at www.basicsskillsprep.org.
